Education

BS Computer Science, Salim Habib University — Karachi
Sept 2022 – July 2026 (Expected)
Relevant Courses: ML, Data Structures, Algorithms, DBMS, Full Stack Development

---

Internship

AI Intern – Systems Limited, Karachi
June 2025 – Present

- Working in the AI department to build and experiment with open-source LLM tools
- Assisting in the development of AI-driven business automation solutions

---

Technical Skills

Languages: Python, C++, SQL, JavaScript
Web/Tools: React.js, Next.js, Prisma ORM, TailwindCSS, Git, Vercel
AI/ML: Hugging Face, Llama.cpp, SQLCoder, Scikit-learn, Pandas
Databases: MySQL, PostgreSQL
Cloud/Automation: AWS (Basic), Make.com

Projects

Text-to-SQL App (LLM-powered)

- Built a natural language interface for querying SQL using local LLMs (SQLCoder, Ollama)
- Tools: Python, Hugging Face, Streamlit

AI Tour Booking App

- Developed a scalable app with AI agent for finding cheapest flights/hotels
- Stack: Next.js, Prisma, PostgreSQL, Make.com, ShadCN

Sales Forecast (Daraz Dataset)

- Trained regression model to predict sales; optimized RMSE by 23%
- Tools: Python, Pandas, Scikit-learn

University Portal

- Automated student admissions with full-stack C++ and JavaScript solution
- Skills: Backend logic, UI, Form processing

Certifications

- Python & Machine Learning – Karachi Institute of Technology
- Full Stack Bootcamp – React & Next.js
