SYED MUHAMMAD YAMANN

AI ENGINEER

+92 3112236686 | smyamann04@gmail.com | LinkedIn

SUMMARY

Highly motivated and result-oriented professional specializing in Artificial Intelligence.Experienced in building AI-based solutions and Research work with expertise in machine learning,natural language processing, deep learning and computer vision. Strong programming skills with proficiency in Python.

SKILLS

Languages: Python, C++
Technologies: TensorFlow, Pandas, Scikit Learn, Numpy, Matplotlib, Seaborn, Jupyter, Colab, Github, MySQL

PROJECTS

- **Thesis:** RAVI - Urdu Textual Image Narrator: a web-based end-to-end application that uses OCR for Urdu printed text from images and Text-to-Speech (TTS) technology for vocalizing the extracted content.
- **ABSA:** Implemented ABSA using dependency parsing, POS tagging, VADER sentiment analysis, and TF-IDF feature extraction to analyze sentiment in the book "Mind Platter".
- **Advanced Skin Cancer Classification :** Using Swin Transformers and Hybrid Deep Learning Models on HAM10000 Dataset.
- **Binary & Multiclass Classification of Malaria :** Using Deep Convolutional Neural Networks.
- **Facial Recognition System:** Using Ball-Tree Algorithm and K-means

PROFESSIONAL EXPERIENCE

Data Annotator, Devster Labs (Remote) **Oct 2024 - Jun 2025**

- Transcribing medical audio data for Snorefox app.
- Streamlined project workflows, assisting on deep learning model.

Data Annotator, VisionX (Remote) **Apr 2025 - May 2025**

- Data annotation using bounding boxes of multiple classes.
- Used Roboflow as a labeling tool and to automate the process.

Summer Intern , Hasnain Tanweer Associates **Jun 2023 - Sep 2023**

- Coordinated testing and validation, ensuring compliance with industry standards.
- Website/ Software quality testing.

Summer Intern , GFK Etilize **Jun 2023 - Sep 2023**

- Ticket generation & SRS Documentation of Product Information Management Software
- .Research work on software engineering methodologies.

EDUCATION

Bahria University, Karachi Campus **Oct 2021 - Jun 2025**

Bahria University, Bachelors of Science in Artificial Intelligence

- **Coursework**: Artificial Intelligence, Machine Learning, Deep Learning, ANN, Computer Vision,NLP, Cyber Security, OOP,DBMS, Data Structures & Algorithms, Operating Systems, DataMining

A level, Private(Cambridge International Education) **Aug 2018 - Nov 2020**

- Humanities & Sciences

O level, Wahaj Hussain Schooling System (WHSS) **Aug 2016 - May 2018**

- Pre-engineering
